

PL-7003: Create and Manage Model-Driven Apps with Power Apps and Dataverse

Microsoft - Business Applications

- **Nível:**
 - **Duração:** 7h
-

Sobre o curso

In this learning path, you practice building model-driven apps by using Microsoft Power Apps.

The skills validated include creating Dataverse tables, modifying forms and views, and configuring a model-driven app. The scenario in this experience represents real-world challenges faced by individuals with business-specific expertise who build model-driven apps.

Destinatários

Students wishing to create and manage model-driven apps with Power Apps and Dataverse.

Objetivos

Students will learn to:

- Create tables in Dataverse
 - Get started with model-driven apps in Power Apps
 - Configure forms, charts, and dashboards in model-driven apps
 - Manage solutions in Power Apps and Power Automate
 - Guided Project – Create and manage model-driven apps with Power Apps and Dataverse
-

Condições

>Para particulares

- 10% do valor total pago no ato da inscrição; restante valor até 7 dias antes do início do curso.
- Formandos não residentes em Portugal: pagamento de 50% no ato da inscrição.
- Possibilidade de pagamento em até 12 prestações mensais sem juros via Cofidis Pay (até 2.500€, sujeito a aprovação).
- Possibilidade de beneficiar do Cheque Formação+Digital até 750€ (conforme elegibilidade).

- Isenção de IVA para particulares.

>Para empresas

- Empresas nacionais: pagamento a 30 dias, contra fatura (acresce IVA à taxa legal em vigor).
 - Empresas da UE e fora da UE: valores isentos de IVA e pagamento a pronto.
-

Pré-requisitos

Candidates for this credential should be familiar with data modeling concepts in Microsoft Dataverse and with the Power Apps maker portal.

Programa

- Create tables in Dataverse
- Get started with model-driven apps in Power Apps
- Configure forms, charts, and dashboards in model-driven apps
- Manage solutions in Power Apps and Power Automate
- Guided Project - Create and manage model-driven apps with Power Apps and Dataverse

Create tables in Dataverse

- Dataverse lets you securely store and manage data that's used by business applications. Standard and custom tables within Dataverse provide a secure and cloud-based storage option for your data.

Get started with model-driven apps in Power Apps

- Model-driven app design is an approach that focuses on quickly adding components to your apps. These components include dashboards, forms, views, and charts. With little or no code, you can make apps that are simple or complex.

Configure forms, charts, and dashboards in model-driven apps

- In this module, you'll learn about forms, grids, views, charts, and dashboards that can be used in model-driven apps.

Manage solutions in Power Apps and Power Automate

- Microsoft Power Apps and Power Automate include such package features as apps from Microsoft Power Apps, site maps, flows, entities, customer connectors, and more. In this module, you'll learn how to manage solutions with Power Automate.

Guided Project - Create and manage model-driven apps with Power Apps and Dataverse

- In this module, practice building model-driven apps with Microsoft Power Apps, including creating Dataverse tables, modifying forms and views, and configuring apps. The lab offers interactive practice with real-world scenarios for business-specific challenges.
