ECIH – Certified Incident Handler (e-Learning)

EC-Council

Com certificação

- **Nível:**
- **Duração:** 24h

Sobre o curso

The EC-Council Certified Incident Handler (ECIH) program focuses on a structured approach for performing the incident handling and response (IH&R) process. The IH&R process includes stages like incident handling and response preparation, incident validation and prioritization, incident escalation and notification, forensic evidence gathering and analysis, incident containment, systems recovery, and incident eradication. This systematic incident handling and response process creates awareness among incident responders in knowing how to respond to various types of security incidents.

Cybersecurity Professionals interested in pursuing incident handling and response as a career require comprehensive training on the IH&R concepts as well as real-world scenarios. The ECIH program includes hands-on learning delivered through iLabs, online labs within the training program.

Destinatários

The incident handling skills taught in ECIH are complementary to the job roles below as well as many other cybersecurity jobs:

- Penetration Testers
- Vulnerability Assessment Auditors
- Risk Assessment Administrators
- Network Administrators
- Application Security Engineers
- Cyber Forensic Investigators/ Analyst and SOC Analyst
- System Administrators/Engineers
- Firewall Administrators and Network Managers/IT Managers

ECIH is a specialist-level program that caters to mid-level to high-level cybersecurity professionals. In order to increase your chances of success, it is recommended that you have at least 1 year of experience in the cybersecurity domain. ECIH members are ambitious security professionals who work in Fortune 500 organizations globally.
