Sobre o curso

Over the years, best-practice frameworks have been developed and promoted to **assist in the process of understanding, designing and implementing enterprise governance of IT** (EGIT). COBIT 2019 builds on and integrates more than 25 years of development in this field, not only incorporating new insights from science, but also operationalizing these insights as practice.

COBIT® 2019 provides a comprehensive framework that assists enterprises create optimal value from IT by maintaining a balance between realizing benefits and optimizing risk levels and resource use. **COBIT® 2019 enables IT to be governed and managed in a holistic manner for the entire enterprise,** taking in the full end-to-end business and IT functional areas of responsibility, considering the IT-related interests of internal and external stakeholders.

Learners will dive into the heart and structure of the COBIT framework, including:

- New framework introduction
- Key concepts and terminology
- Governance and Framework Principles
- Governance system and components
- Governance and management objectives
- Performance management
- Designing a tailored governance system

Destinatários

Business Management, IT /IS Auditors, Internal Auditors, Information Security and IT Practitioners; Consultants, IT/IS Management looking to gain an insight into the Enterprise Governance of IT and looking to be certified as a COBIT® Implementer or Assessor.

Pré-requisitos

No mandatory prerequisites although some experience in IT or related fields is recommended.
